

The Gene Trimble Collection Of Personal Chips

Catalogued by Pete Smith

About Gene Trimble

Eugene Harlan Trimble was born in Kenton County, Kentucky, on July 26, 1942. On June 29, 1974, he married Carol Lee Lehmkuhl who was born on April 17, 1945. They had two daughters.

Gene began work in the gambling industry at the Sportsman's Club in Newport, Kentucky in 1961. He began collecting chips in 1963 after he was given a bag of chips by Martin Miller, operator of the Merchants Club in Newport. Martin told him, "hold on to these boy, they may be valuable some day."

In 1980 he moved to Las Vegas and took a job as a poker dealer at the Holiday Center Strip. He worked at the Four Queens from 1981 to 1996. Then he was bingo/keno manager at the Fiesta Hotel Casino. He was poker room manager at the Palms from 2001 to 2006. He retired in 2012. He organized more than 300 poker cruises with Holland America.

Gene specialized in researching and collecting chips from illegal clubs. Many operated in the South when he was growing up. He was an unofficial Historian for the Casino Chip and Gaming Collectors Club.

He died on July 12, 2017. He is buried in Highland Cemetery at Fort Mitchell, Kentucky.

Who Makes Personal Chips?

The most popular Personal Chip is made of injection molded plastic with eight bars (4 x 2) of contrasting color on the edge. The blank chips are made by one factory in China and used by all the chip producers. The machine that prints and applies labels is made by another company and used by various producers. The maker of the blank chips and maker of the printing machine are not considered important in the identification of Personal Chips.

Someone takes the picture, designs the chip and lays out the lettering. Many companies are capable of producing the chips in small or larger quantities. Usually the producer is not identified and the chips do not have a makers mark.

Labels may also be applied on older poker chips or retired casino chips. Some combinations of chip and label may be unique. The age of the original chip cannot be used to date the Personal Chip. It is the date of the label that determines the age.

Examples of Personal Chips

About The Chip Guide

The Museum of Gaming History publishes “The Chip Guide” as a website. Personal Chips with a “CG” number are illustrated on The Chip Guide.

Group 1

Personal Chips issued by members of the Casino Chip and Gaming Token Collectors Club (CC>CC). Collectors should have a CC>CC membership number.

Group 6 – Other Chips

Wedding Favors: These generally have the first name of the bride and groom with no last name, and the date of a wedding. Trimble had 2093 of them. Of these, 1303 of them were issued in 2006, 2007 and 2008. These would not reflect on the number of Las Vegas weddings but rather the peak years that Gene was collecting them.

Wedding announcements; “Save the Date” [45] and “Getting Married” [8].

Cruise Chip: Gene hosted poker cruises. Each participant received one token with their face but no name on one side. Additional chips or additional text could be ordered at an additional cost. [365] Most had a common reverse promoting the cruise line.

Gene had [45] chips with birth announcements another [56] with various birthdays. The second most popular birthday commemoration was for 50 years [11] with six men and five woman issuing these chips. The most popular birthday was fifteen (Quince Anos) [17] with only girls recognized.

Various life events have been commemorated on LE chips. Gene had these: Anniversaries [32]; Baby Shower [3]; Bachelor Party [1]; Bachelorette Party [3]; Baptism [1]; Bar Mitzvah [1]; Bridal Shower [2]; First Communion [1]; Graduation [13]; JCUS CACM [2]; Reception [1]; Renewal [1]; Retirement [1]; and Reunion [5].
